

# HIGHGATE SYNAGOGUE BUILDING UPDATE

HELP US OVER THE LINE...  
FOR THE PRICE OF A CUP OF COFFEE!

As we are nearing our target to commence building, we need one final push. To take us over the line to start building in November, we need to raise another £250,000 from within the Community over the next 21 days. To put this in context we have already received pledges topping £1.6 million to date and with other support from third parties have comfortably broken the £2 million barrier.

And we hope everyone can help right away.

We have been overwhelmed with the generosity of our special community. But we need a little more help from as many people as possible. Moreover, it doesn't have to break the bank.

If you have been reluctant to give because you don't think it will make a difference, think again. For the price of a posh coffee every day (Shabbos excluded obviously!) with Gift Aid this could contribute £5000 over 5 years.

So if you can commit just £10 a week, you will be helping us all move towards the exciting future we are planning.

Reduce your caffeine intake and help build our shul. It will make you feel good.
